SUMMARY

Business Analyst and Data Analyst with 5+ years across Fintech, E-commerce, and Logistics, using SQL, Python, and Power BI/Tableau to turn raw data into decisions that move revenue and reduce risk — from a \$55M revenue dashboard to a \$600K project risk analysis. Also gaining hands-on project management experience supporting Agile initiatives and cross-functional coordination. Backed by a public portfolio of end-to-end analytics projects on GitHub and Tableau Public.

EXPERIENCE

2025 - 2026

Doha, Qatar

Financial Data Analyst

QIC Digital Venture Partners

- Built Power BI dashboards from SQL data, cutting reporting time by 15%
- Modeled budgets, forecasts, and ROI scenarios to support strategic planning
- Automated data extraction workflows using AI prompting, saving manual effort
- Tracked financial metrics with stakeholders, maintaining 100% operational compliance

2023 - 2025

Toronto, Canada

Operations Coordinator

The North Transportation

- Coordinated daily logistics for a 300–400 vehicle fleet, optimizing scheduling
- Monitored real-time dispatch across time zones, resolving transit bottlenecks
- Streamlined cross-functional workflows between dispatch and compliance teams
- Maintained 100% shipment documentation accuracy across all transportation procedures

2022 - 2023

London, UK

E-commerce Data Analyst

ASOS

- Analyzed SQL sales data for 18–44 demographic, building Tableau dashboards
- Gathered Agile sprint requirements, cutting cart abandonment by 12%
- Automated customer feedback extraction using AI prompting, reducing review time
- Monitored web traffic via Google Analytics to validate seasonal rollout data

EDUCATION

2021 - 2025

BBA (Hons) in Management Information Systems

Sri Lanka Institute of Information Technology, Malabe

PROJECTS

Credit Card & Customer Shopping Analytics | Power BI

- github.com/thabeebjafran/credit-card-financial-dashboard
- github.com/thabeebjafran/customer-shopping-behavior-analysis
- Aggregated 656K+ transactions into a dashboard monitoring \$55.3M in revenue
- DAX/SQL modeling revealed Blue/Silver tiers drove 93% of sales, \$30M from male buyers
- Analyzed 3,900 transactions via Python/SQL — male customers generated 2.1x more revenue

AHI – Marketing Analytics App (\$250K)

- github.com/thabeebjafran/ahi-marketing-analytics-app
- Led end-to-end SDLC for a hybrid analytics app, enforcing Change Control governance
- Deployed real-time data feeds supporting 4M+ active users via Jira sprint planning
- Generated 20% post-launch ROI by aligning engineering and marketing teams

Mobile Banking Application – Financial Analysis (\$600K)

- github.com/thabeebjafran/mobile-banking-financial-analysis
- Scaled a regulatory-driven project to a \$600K budget across a 14-month lifecycle
- Built compliance models that shifted a projected -20% ROI to sustainable value
- Devised digital adoption strategies balancing regulation with user experience

Plant Pals – Operations Project (\$75K)

- github.com/thabeebjafran/plant-pals-operations-project
- Spearheaded a \$75K B2B expansion, architecting a project charter and WBS
- Synchronized 40+ deliverables across 5 departments using Asana and Jira
- Set OKRs projecting 5% revenue growth and 95% on-time SLA delivery

CERTIFICATIONS

Scrum Master Certification	CompTIA Project+ (PK0-005)
Google Project Management	Microsoft Project Management
Tableau BI Analyst	Google Data Analytics
Microsoft Business Analyst	Google Analytics
SQL & Relational Databases	Google Campaign Manager 360
Agile with Atlassian Jira	Google Prompting Essentials
Google AI Essentials	Workflow Specialist Certificate

KEY ACHIEVEMENTS

 Led cross-functional teams and budgeting on projects up to \$600K	 executive reporting time by 15% via Power BI and AI-driven workflows
 Turned a negative-ROI banking initiative into a strategic compliance asset	 Scaled a 300–400 vehicle logistics fleet with 100% documentation accuracy

CORE STRENGTHS

Stakeholder Management	Cross-Functional Leadership
Analytical Thinking	Attention to Detail
